🎓 Experienced Tutor | University of Tokyo | MSc in Physics

With an MSc in Physics from the University of Tokyo and a BSc in Applied Physics from Kyoto University, I bring 10 years of teaching expertise. I've helped students excel in IB, A-Level, and IGCSE Physics, developing their exam performance and critical thinking skills.

Teaches: IB Physics A-Level Physics IGCSE Physics GCSE Physics AP Physics

Curriculum: IB A-Level GCSE IGCSE AP

Qualifications

University of Tokyo: MSc in Physics (2011–2013)

Kyoto University: BSc in Applied Physics (2007–2011)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the last decade, I have guided students in IB Physics and other curriculums, helping them gain a deep understanding of key concepts such as electromagnetism, quantum mechanics, and thermodynamics. I have worked with students across multiple regions, including Japan, Europe, and the US, preparing them for top university admissions.

In addition to high school curriculums, I have experience tutoring university students in advanced physics subjects, including theoretical physics and statistical mechanics. My approach to tutoring is built on ensuring that students grasp both theoretical knowledge and practical applications, allowing them to perform well academically and in exams.

Throughout my tutoring career, I've worked with students at all academic levels, from IGCSE to undergraduate studies, guiding them to improve their performance in physics and helping them secure top results in challenging courses.
