## Tutoring Experience

For the past three years, I have worked with students from a variety of academic backgrounds, focusing on IB Business Management and A-Level Business. I help students grasp key business concepts and guide them in applying theoretical knowledge to real-world scenarios, ensuring they excel in their exams and assignments.

In addition to my work with IB and A-Level students, I've also assisted IGCSE Economics students in understanding fundamental economic principles and preparing for their assessments. My students have consistently achieved top scores, and many have gone on to pursue higher education in business and economics at prestigious institutions.
