Experienced Tutor | Seoul National University | PhD in Biological Sciences

I earned my PhD in Biological Sciences from Seoul National University and hold a BSc in Biology from Korea University. With 20 years of teaching experience, I specialise in IB, A-Level Biology, and IGCSE Science, helping students worldwide excel in exams and deepen their grasp of the subject.

Teaches:

IB Biology

A-Level Biology

IGCSE Biology

GCSE Biology

AP Biology

Curriculum:

IB

A-Level

GCSE

IGCSE

AP

Qualifications

Seoul National University: PhD in Biological Sciences (1998–2002)

Korea University: BSc in Biology (1994–1998)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the past 20 years, I've worked with students from diverse backgrounds, helping them excel in IB, A-Level, and IGCSE Biology. I've guided students through complex biological concepts, ensuring they not only understand the theory but also its application. My students have achieved top results and gained admission to prestigious universities.

During my time as a tutor, I've also provided specialised support to students preparing for AP Biology, ensuring they're fully prepared for the challenges of the course. My in-depth understanding of biology has allowed me to help students tackle difficult topics like genetics and cellular biology with confidence.

Throughout my career, I've had the privilege of working with students from various international schools, adapting my teaching methods to different curriculums and individual learning styles. Many of my students have gone on to pursue successful careers in medicine and scientific research.
